

Band Member Update

THURSDAY MAY 31ST 2018

Next band member update meeting will be scheduled
for JULY 31, 2018.

UPCOMING COUNCIL MEETINGS:

June 4 & 18

July 9 & 30

August 6 & 20

September 10 & 24

Beginning in June, agendas and minutes for all council meetings will be available on the ADKFN website (www.adkfirstnation.ca). Individuals wishing to speak before council on subjects are asked to talk to Jacqueline Spies, Acting Band Manager about being added to the agenda.

ADKFN and Hamlet Council are looking to hold a council to council meeting in the near future. ADKFN is presently waiting for the Hamlet Mayor and Council to provide a date and a list of agenda items for the meeting. ADKFN has provided their topic items.

ADKFN Council and the Board of Directors of ADK Corporate Group have now established quarterly meetings between the two organizations. Next meeting is scheduled for July 25th. Members requesting for information of the ADK Corporate are asked to have the topics to the ADKFN office no later than July 18th.

NORTHWEST TERRITORIES NEGOTIATIONS

UPCOMING MEETING DATES:

June 19/20 – Vancouver (Main table)

NOTES FROM MOST RECENT MEETING – YELLOWKNIFE (MAY/18)

ADKFN presented to Canada and Northwest Territories new negotiation positions on the following matters:

- Municipal Governance
 - ADKFN is considering whether to pursue a public or aboriginal model of governance. (Explain what that is, if need be).
 - At this point in time, ADKFN sees important opportunities associated with the public model of government (provide a few examples) and wants to explore this option further. A final decision has not yet been made.
 - ADKFN final decision will include a careful analysis, opportunities to receive input from ADKFN community members and further discussions with GNWT and the municipality.
 - ADKFN's objective is to pursue a model that is financially viable, efficient and provides the highest level of services to ADKFN's community.
 - Using either model, ADKFN anticipates there will be similar needs for staff and employment. Using either model requires on-going work and engagement with the municipality, GNWT and ADKFN's community.
 - Solicit feedback from ADKFN members.

- Capital Transfer/Core Cash Benefits

- we are concerned with Canada's offer and are working to obtain a capital transfer that is fair and reasonable and is not in ADKFN's best interest. To re-negotiate the number, we are conducting the necessary research and analysis, and are in discussions with Canada on this topic. Once we have a better understanding about Canada's views, we'll share this information with ADKFN's community.

- Land Quantum
- Taxation
- Consideration of moving up the "social envelope" from Phase 2 to Phase 1 of Implementation – specifically community wellness, health, education, justice and social program support
- Land Selection
- Resolve the outstanding issue concerning Property Taxation owed

Other related activities already established and being worked on in association with the Negotiations for Self Government:

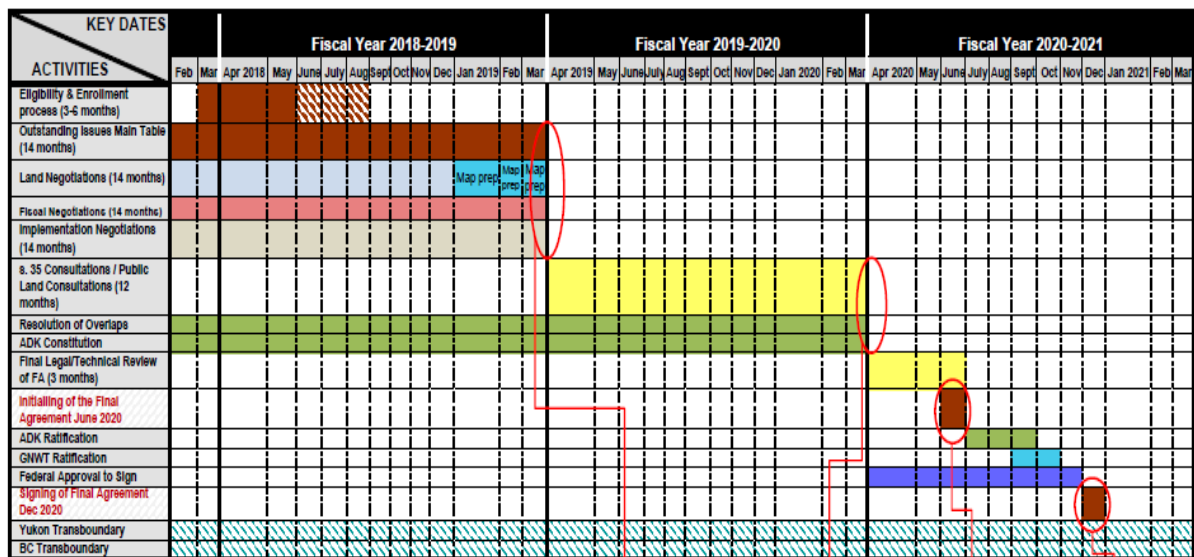

- Development of a new Election Code
- Development of Pre-Implementation Plan
- Development of a Land Use Plan
- Conducting a Governance/Incorporation Study for the municipality
- Engagement with other First Nations for overlap discussions to resolve outstanding issues
- Development of Human Resources Plan and Policies

Other items being planned for development depending on funding status:

- Development of a Constitution
- Development of a Financial Management Plan and fiscal policies
- Development of a Financing Agreement
- Development of an Economic Development Plan and Fund
- Specific Claims research

SIGN FINAL AGREEMENT IN WINTER 2021

BC NEGOTIATIONS

UPCOMING MEETING DATES:

June 21 - Vancouver

NOTES FROM MOST RECENT MEETING – VANCOUVER (MAY/18)

The Province of British Columbia has advised us that it is prepared to recognize ADKFN rights and is prepared to commence formal discussions. Negotiations are currently in a sharing of information mode.

Both ADKFN and the Province shared their ethnohistorical reports and agreed that there is the potential for strength of claim. Consideration is being given for negotiations with BC to pursue a Reconciliation Agreement and this could allow for the option of a treaty in the future. ADKFNs reasoning for moving towards a Reconciliation Agreement consists of the following: (1) the process is available to ADKFN and First Nations don't have to be in BC under GBC's recognition of rights policy, (2) it creates a partnership with the GBC, as well as with other First Nations, and (3) creates a bilateral relationship with GBC

A Framework Agreement would include substantive components: (a) recognition/acknowledgement of rights, (2) establishes political relationships/processes, (3) lands and resources management in ADKFN territory, (4) royalties, (5) revenue sharing, (6) community and social/economic development, (7) ability to discuss overlaps with other First Nations, (8) creates dispute resolution mechanisms, and defines resourcing of negotiations and support for capacity development internally for the First Nation. GBC was encouraged by this position and future discussions will consider existing models – Kaska, Lhedi Thenne, and Sauteaux. The Province of BC made a commitment to provide a formal affirming letter recognizing ADKFN in advance of the next meeting.

The intent is to look at a community meeting and tour of the ADKFN traditional territory in the Fall.

YUKON NEGOTIATIONS

UPCOMING MEETING DATES:

August 8 - Whitehorse

NOTES FROM MOST RECENT MEETING – WHITEHORSE (MAY/18)

Negotiations are currently in a sharing of information mode. YTG wants to keep meeting with ADKFN and to conclude that addresses ADKFN's interests and addresses some of YTGs. YTG recognizes the challenge for ADKFN in being in three jurisdictions, and wants to address this challenge with open dialogue, including with other governments. YTG recognizes the need for clarity and transparency as part of moving forward.

YTG is engaged with several other First Nations and will have to figure out how to address a government to government relationship with ADKFN, while also being aware of the implications on other First Nations. YTG is keen to move forward, but these are the dynamics it faces.

YTG has commenced research on an ethnographic report, but this report is not complete. under the Umbrella Final Agreement process in the 1980s, the Yukon First Nations got together and agreed on the boundaries of the First Nations, so ethnographic research was

not undertaken. With changes to non-settled First Nations, YTG's view is that it needs to do the research, and is working on developing this policy, such as on the differences on using primary and secondary research, who is best suited to do this research, when and for what purpose. YTG recognizes that there isn't a one-size fits all approach but also that this information is important in determining the level of consultation required for First Nations.

The Premier of Yukon has provided a general acknowledgement recognizing ADKFN's asserted rights in the Yukon. YTG views that exploring specific land interests for ADKFN is possible.

ADKFN is still working on determining its negotiating positions. As part of that process, however, ADKFN wants to engage YTG in discussions to determine what is within the realm of the possible. ADKFN plans to share some of its preliminary ideas of potential topics for further discussion; however, this as an on-going and exploratory processes. ADKFN wants to build this process together with YTG and hopes to receive YTG's views as part of the process moving forward.

We did confirm that the letter provided November 11, 2016 by former Chief Deneron is no longer valid because the present Chief and Council doesn't want to be limited or bound by the positions previously presented to YTG. The current Chief and Council doesn't agree with the amount or location of the land quantum referenced in the letter by former Chief Deneron. Discussions going forward will include: (1) land management, (2) royalty sharing, (3) social envelop issues, (4) overlap issues, and (5) funding negotiations going forward.

The last item established from the meeting is a communication protocol between ADKFN and YTG.

KASKA LITIGATION

As an update, ADKFN has filed in the Yukon courts to intervene in the *Kaska Dena Council v. Government of Yukon, et. al.*, S.C. No. 16-A0161. In August 2017, ADKFN received a letter from the Government of Yukon notifying ADKFN that the Kaska Dena Council had commenced litigation that may affect ADKFN's interests in the Yukon. The Government of Yukon recommended that ADKFN secure independent legal advice as to the legal effect of the declarations sought by the Kaska Dena Council. The Government of Yukon stated that, "to the extent that the court makes findings of fact with respect to Aboriginal title, the Government of Yukon may seek to rely on those facts in future litigation". The concern that our legal has with the Kaska Dena Council file against the Government of Yukon is that it must protect its rights in Yukon until a transboundary agreement can be signed. ADKFN asserts aboriginal and treaty rights within its traditional territory in south western Yukon. ADKFN would have serious concerns if a court decided of the nature or scope of its aboriginal or treaty rights in the context of a duty to consult case brought by another First Nation.

Our legal has identified to Chief and Council that they are concerned with the KDC's reference to "exclusive occupation" of the claimed area, which has been partially addressed through their amended Statement of Claims. LFN's expert report by Ken Coates, however, raises concerns for ADKFN because it purports to determine "who was or were the Aboriginal groups in southeastern Yukon", but only refers to the Kaska, and not ADKFN, the Dene or Slavey speakers. ADKFN sees this as a serious omission, and strongly opposes

the findings of this report. ADKFN's preference, however, is to negotiate a resolution of this matter, and doesn't see the litigation KDC has brought as the appropriate forum to resolve these issues.

A scheduled June 4 CMC is to occur, and this is where ADKFN will be advised of its intervener/party status and July 11-13 summary trial dates

KOTANLEE & POINTED MOUNTAIN DISPUTES WITH PARAMOUNT

As an update, ADKFN is working with legal to resolve the outstanding disputes with Paramount Resources (formerly Apache) involving community agreements (IBAs) for both Kotanlee Remediation Project in the Yukon and the Pointed Mountain Remediation in NWT. In the NWT context, there is long standing IBAs that haven't been honored through the transfer of ownership of the project; in the Yukon context, the former Chief and Council granted permission of permit in the traditional territory of ADKFN dependent on a the proponent and ADKFN reaching agreement of an IBA. The proponent has not honored this relationship. Unfortunately, ADKFN is not a signatory to the First Nation Umbrella Agreement in the Yukon and therefore there is limited legal recourse the nation has in suing Paramount. Currently being managed by Rae & Company of Calgary, AB.

STRATEGIC PLAN DEVELOPMENT

ADKFN received funding from INAC to complete its first Strategic Plan in 2018. A Request for Proposal was released with a closing date for consultants to respond by May 30th. The Strategic Plan is being developed to get member input into priorities for business development and programming for the Nation. The plan is also important for ADKFN to ensure full funding from the Government of Canada through grant programs. The last plan was developed in 2004 but was never adopted by the Council of that date and was never implemented. The selection of the proponent will occur by the end of June with most of the work occurring through communities in the Fall. The completed plan is expected to be released to the membership prior to Christmas.

LANDS AND RESOURCES

EVENTS

The following workshops and meetings were attended by representatives of Lands and Resources since the previous Band Member update:

- IGC Meeting: attended the April IGC Meeting and prepared a summary of the meeting for ADKFN reference;
- *Mineral Resource Act* (MRA) Meetings: attended the MRA meetings on April 30-May 1 and May 28-29, 2018 via conference call;
- Yukon Partnership meeting on Climate Change, Green Economy, and Energy: attended the second Yukon partnership meeting held on April 30, 2018 in Whitehorse, YT via conference call;
- Lands Side Table Working Group Meeting: Our consultants (Landmark and Urban Systems) both attended the lands side table working group meeting on May 15-16 in

- Yellowknife, NWT. Future meetings will include the consultants along with a community representative;
- Implementation Side Table Working Group Meeting: Staff and our consultant (Landmark) attended the implementation side table working group meeting in Edmonton, AB. Future meetings will continue to include staff and consultants, but they will be joined by a community representative;
 - Pre-engagement on Yukon Government Traditional Knowledge Policy Meeting: attended the pre-engagement on Yukon Government Traditional Knowledge Policy meeting that was held in Whitehorse, YT via conference call;
 - Yukon Parks Meeting: attended the May 15 Yukon Parks meeting held in Whitehorse, YT via conference call;
 - Conference of Management Authorities (CMA) Meeting: attended the CMA meeting on May 15-16 CMA held in Yellowknife, NWT via conference call;
 - Land Use Planning Workshop: attended the Land Use Planning workshop on May 23-25 in Yellowknife, NWT;

REFERRALS

BC Oil and Gas Commission

- A referral response was sent to the BC Oil and Gas Commission and Paramount Resources Ltd. regarding a Short-Term Water Use Application (File No. 100105208). The water use is to be used for winter road freezing to provide access to an abandonment project in NE BC, approximately 43 km south of BC's border with NWT.

Mackenzie Valley Land and Water Board

- A referral response was sent to the Mackenzie Valley Land and Water Board regarding Hamlet of Fort Liard 2017 Annual Water License Report (MV2009L3-0025).
- A referral was received for Paramount Resources Ltd. regarding 2017 Annual Progress Report (MV2014X0011). The Progress Report outlines remediation activities carried out during 2017 at the former Pointed Mountain Gas Field located approximate 30 km NE of Fort Liard in NWT. A response was drafted; however, ADKFN leadership raised concern over its submission as this site is contentious due to ongoing dispute over the IBA and remediation plans with the proponent. Due to these factors Landmark, under direction from leadership, have withheld the submission of this referral response for the time being.

FUNDING APPLICATIONS

- Interim Resource Management Assistance (IRMA) Base Funding: completed and submitted the application for 2018/19 IRMA Base Funding. This funding supports the regulatory operations of the Lands Department.
- IRMA Resource Pressures Funding: completed and submitted the application for 2018/19 IRMA Resource Pressures Funding. This additional funding was applied for

- to help cover the costs of legal support and high-level consulting services required for certain projects currently occurring in or immediately surrounding ADKFN traditional territory (Canadian Zinc- Prairie Creek Mine, Paramount Resources Pointed Mountain Remediation Site, Borealis Geothermal Project)
- Aboriginal Fund for Species at Risk (AFSAR) Funding: completed and submitted the application for AFSAR Funding through the Species at Risk Stream. The application proposed financial support for the implementation of a “Monitoring and Traditional Knowledge Project for Boreal Caribou Within Acho Dene Koe Traditional Territory”. Successful candidates will be notified in early September 2018.
 - Over the course of the last few months Landmark has had conversations with both TIDES Canada and WWF representatives regarding funding opportunities for the possible establishment of a Guardianship program for ADKFN. Both parties appear willing to continue the conversation and possibly help fund the process, should ADKFN be interested in such a program. An explanatory document which outlines this opportunity in greater detail was sent to ADKFN on May 7, 2018.

RESEARCH APPLICATIONS AND ARCAHEOLOGICAL PERMITS

Three research applications have been responded to:

- Research Application 4011: The goal of this research project is to identify and measure the different possible sources of toxic mercury that is transported in rivers of the Mackenzie River basin down to the Beaufort Sea. The project will look to establish how much mercury comes from modern versus ancient sources;
- Research Application 4104: This proposed linguistics research project will investigate the semantics of relative clauses in Tlicho Yatii, a Dene language
- Cooperative Waterfowl Population Survey: The Canadian Wildlife Service is applying for a Wildlife Research Permit for aerial surveys of waterfowl on behalf of the US Fish and Wildlife Service. These surveys have been ongoing in the Northwest Territories since 1955 and provide long-term information used to manage and conserve populations of waterfowl on a continent-wide basis.

Three archaeological inspection permits from within NWT have been responded to since the previous update; however, all permits fall well outside ADKFN’s traditional territory.

STUDIES

Caribou TK Study

- Under the NWT Cumulative Impact Monitoring Program, our Lands consultants (Landmark Resources) worked with ADKFN on the collection of spatial and background research regarding impacts to boreal caribou within ADKFN’s traditional territory in the NWT. The final reporting was completed and following ADKFN approval the report was submitted to CIMP for review. ADKFN is awaiting CIMP’s response.

Land Use Planning

- Our consultants (Landmark and Urban Systems) continue to work on an ADKFN Land Use Plan. Phases 2 and 3 of the planning process will be carried out at the same time to focus on community engagement, determining economic priorities and policies for ADKFN land management and economic development priorities as it relates to the land selection process. The phases also include GIS, development of policy, identifying what land use activities are allowed, and the economic return on those activities. Phases 2 and 3 will be consistent with the treaty land selection process.

DEVOLUTION

MRA discussions continue as part of the Devolution process. Our consultants (Landmark) attends MRA meetings on behalf of ADKFN to ensure ADKFN's participation in the devolution process and the development of resource management legislation and policies. A summary document of MRA processes was sent to ADKFN leadership on April 4, 2018.

BAND OFFICE

ADOLESCENT PROGRAM AT THE GATHERING PLACE (FORMALLY THE TREATY HOUSE) – A UPDATE FROM THE PROGRAM

- A new water tank and pump has been installed. The new water tank is now located inside the building.
- The adolescents continue to make their own schedule for activities.
- Drumming and hand game practice is happening on Saturday and Sundays. See calendar attached.
- We dropped the age to 14 yrs. of age.
- We will be changing the days and hours of operations. We will be open from Monday – Thursday from 4 p.m. – 10 p.m. & Friday from 4 p.m. – 11 p.m.. We will be closed on weekends unless there is a special event happening. Hand-game and drumming practice will continue at the gathering place and then will be relocated to the Arbor. **These changes will be effective July 2, 2018.** We are closing on the weekends to encourage more family time.
- We welcome aboard Holly Fantasque as our junior rec-coordinator. She is currently working along side Robert getting training. Starting in July Robert will be more in the office working on coordinating and implementing community events.
- **There is zero tolerance for those under the influence or alcohol or narcotics. Individuals will be asked to leave, if non-compliant the RCMP will be called.**

OTHER SERVICES

- Individuals continue to come in the Band Office with their concerns, we encourage individuals to continue doing this. We will act swiftly to address your concerns and find a solution.

COMMUNITY JUSTICE

- The Community Justice Program has had three successful individuals complete the requirements of the program.

- This program will be campaigning soon for crime prevention via workshops and other community events.

LANGUAGE/HISTORY REVITALATION PROGRAM

- This program continues to make headway with reviving the language.
- We are working with all age groups.
- We are in the daycare reading to the children every Tuesday morning from 10:30 a.m. – 11:30 a.m.
- Kathy is always looking for old stories and photographs, if you have historical information on traditional practices and such, please contact 770-4571 Ext. 1266.

TRADITIONAL SEWING GROUP

- Traditional sewing classes are still being done by Barbara McLeod at the 9 Plex.
- The date of the sewing group has changed to every Thursday evening from 7 p.m. – 9 p.m.
- Come out and join Barbara this is a great way to bond with your children and share some stories and tea and treats.

COMMUNITY WELLNESS

- We have submitted our community wellness plan for the 2018-2019 fiscal year. Our grant was approved. We are awaiting the funding.
- Soon we will be unfolding community workshops, cultural events and more.
- Many thanks to Michelle Browning who conducted many one-on-one interviews with community members. Your voices were heard, and our plan was developed based on your feedback. We are still open to hearing suggestions.

ASSOCIATE OF COMMUNICATIONS

- Shawn McLeod is the latest individual hired by the ADKFN.
- We wish to welcome Shawn aboard.

ASSOCIATE OF COMMUNITY SERVICES

- Michelle Browning was hired to fill this position part-time.
- We wish to welcome Michelle aboard.

HEALING ON THE LAND

- This is a new program for individuals to access.
- This program offers a 28-day healing program, it also offers a 1 week program and a weekend program.
- Individuals are required to leave the community and heal on the land.
- This is aimed to help people with addiction problems.
- We are currently seeking individuals that are willing to rent us their cabins.
- We are seeking Elders that are willing to help these individuals.
- Honorius is paid to Elders and for cabin rentals. If this is of interest to you, please contact Jacqueline at the band office.

ELDER'S COMMITTEE/YOUTH COMMITTEE

- We are still seeking individuals to be a part of these committees. The voice of these committees will be heard. Concerns brought forward from these committee will be brought to the attention of Chief and Council. Together solutions can be found, and community member voices are heard.
- If you are interested, please contact Jacqueline.

GRANTS/PROGRAMS

- We continue to write grants to obtain opportunities to create jobs for the membership.
- We have accessed the TransCanada funding agreement and have education funds available to our membership. We would request that interested individuals contact Jacqueline at the band office for further information and requirements.

Acho Dene Koe
— FIRST NATION —

General Delivery, Fort Liard, NT X0G 0A0
Tel: (867) 770-4571

JOB POSTING

POSITION: Coordinator of Career Development and Training

TYPE: Full-time – 35 hours per week
START DATE: February 19, 2018 or as soon there after
APPLY TO: Jacqueline Spies, Manager of Community Services,
Acho Dene Koe First Nation, General Delivery, Fort Liard, NT,
X0G 0A0;
Email: administration@adksfirstnation.ca
APPLICATION DEADLINE: January 19, 2018
SALARY: Will be based on qualification and experience
(Starting range: \$60,000 to \$75,000)

Acho Dene Koe First Nation (ADKFN) is seeking a highly-motivated individual to fill the position of Coordinator of Career Development and Training (Coordinator) in Fort Liard, NT.

Reporting to the Operations Manager, the Coordinator is the lead facilitator for ADKFN's Essential Skills program. The program is being offered as part of ADKFN's *Skills and Partnership Fund* (SPF) program, a multi-year program in partnership with the Government of Canada. This position leads all program planning, delivery, reporting, and provides guidance to and works collaboratively with other community stakeholders who assist with delivering the program at the community level.

The Coordinator will work directly with ADKFN members to help support adult learners who are transitioning to post-secondary education programs or are proposing or currently taking distance education programs at college or university level. The Coordinator is positioned to work with the adult learners locally for success as they navigate not only Territorial adult education programs but possibly Provincial advanced education programs. The Coordinator works collaboratively with other divisional, departmental, college, stakeholders and partners to facilitate the planning and delivery of supports to adult learners specific to the needs for administration of the First Nation as it prepares its governance and operations with program and services per the pending signing of its Comprehensive Land Claim with the Government of Canada.

The Coordinator must have strong and current working knowledge of Recognition of Prior Learning theory, principles, and processes as well as adult education and learning needs. The Coordinator must have a strong understanding of program design, implementation, motivating, monitoring and evaluation techniques and methods to help support the adult learners.

The ideal applicant would have a Degree in Education as well as two to five years of related experience, including facilitating adult education programs. Knowledge of or experience in working in Northern or Indigenous communities would be considered an asset. A Class 5 Driver's license is required. Equivalencies may be considered. Salary is negotiable, but will include housing and a generous benefits package that comprises health, dental, short and long term disability, life insurance, and generous leave entitlements.

Priority Consideration will be given to qualified participants of the *ADKFN Comprehensive Land Claim Agreement*.

If you are interested in working with an energetic, progressive Indigenous government, please submit a cover letter and resume.

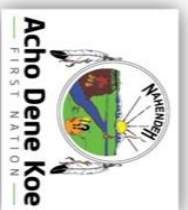

About Fort Liard: Fort Liard¹ is a hamlet with a population of approximately 600 in the Dehcho Region of the Northwest Territories. It is located 37 km north of the British Columbia border and 209 km from Fort Nelson, BC to the south and 285 km to Fort Simpson, NT to the north. It became accessible by road in 1984 with the completion of the paved Liard Highway (Northwest Territories Highway 7 and British Columbia Highway 77).

¹ Fort Liard - (pronounced "Tee-ahrd") (Slavey language: Echaotl Koe^(pronunciation?) "people from the land of the giants" or Ahocho Kue)

We are currently interviewing in the next week to fill this position.
